# Teemi TMSL-55CR PostalPoint programming

Scan codes in order, left to right then top to bottom.

1. Restore factory defaults: Cradle and scanner

2. Scan the BT_ADDR barcode
   on the bottom of the cradle.

3. Set USB communication mode: Scanner and cradle
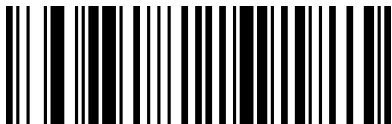

060802131.

SX060802131.

4. Wait for scanner to disconnect and reconnect (will make two sets of beeps)

5. Prepend null bytes to data
(fixes a cradle firmware bug where it doesn't send the first few characters of a barcode)
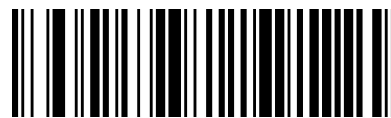

080400.
